

**Independent University, Bangladesh
Office of the Registrar**

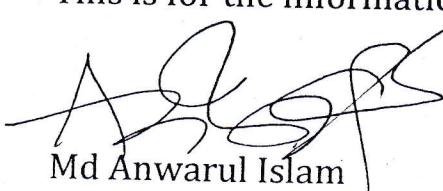

**URGENT CIRCULAR
Graduate Students**

It is to confirm that following the directives of the GoB, the guidelines of the UGC, and the advice of the Covid response Committee, IUB has been conducting full-fledged physical classes for the students since 20 March 2022. Meanwhile, there has been substantial improvement in the vaccination status of the students in the University. In view of the above, and as notified in the earlier notice from the Office of the Vice Chancellor on 10 January 2022, all final examinations scheduled for Spring 2022 for the Undergraduate and Graduate programs will be held physically on campus.

Students with exceptional preexisting health conditions or extraordinary exigencies may contact the respective Head of the Department with relevant supporting papers in favour of their exigencies. In such cases, the Head, in consultation with the Dean, will make the final decision and keep the Office of the Controller of Examinations informed.

Please further note that from Summer 2022 Semester all Undergraduate and Graduate level classes/examinations or course-related activities will be held physically on campus. We strongly encourage you to secure all doses of the Covid-19 vaccine to ensure collective and personal safety. Your access to the campus for attending classes may be denied if you fail to provide a vaccine certificate or other related documents.

This is for the information and compliance of all concerned.
